

Introduction

One For The Climate is an international partnership between Germany, India and South Africa. It aims to encourage civil society investments into renewable energy. This is in order to mitigate carbon emissions and overcome energy poverty in the South.

One Climate Fund Southern Africa grew out of this partnership. The company is registered in South Africa and managed by South Africans.

The company raises investments and loans both within South Africa and offshore. Offshore funding is in terms of climate justice transfers to the South.

Our Objectives

The objectives of One Climate Fund Southern Africa are to:

- Facilitate economic development/employment
- Address energy poverty
- Transform the energy sector
- Reduce emissions (in line with Paris Agreement)

... in order to contribute to mitigation of global warming

Sectors We Fund

Funding is restricted to Southern Africa.

The company funds investments in solar and wind energy products where there is insufficient commercial funding to meet demand.

Who We Fund

- Municipalities and Companies which implement and maintain renewable energy projects
- Companies which assemble components of renewable energy solar and wind products
- Companies which manufacture components for renewable energy projects

Our Products

The lending programmes are designed to provide funds to Southern African registered companies, municipalities and households.

The programmes provide debt in the form of Structured Loans and Bridging Finance.

The company assesses each project through a due diligence process.

Approved projects will have a structured financing facility.

The company enters into a formal loan contract in each case.
